

## Spring Hose Clamps

### Features:

- Effective holding force and clamping strength, the single wire concentrates the clamping force in one specific area around the hose.

- Safety glasses should be worn when installing parts.
- sold in box quantity only**

## Spring Hose Clamp Pliers

### Features:

- provides simple and quick installation of single wire spring hose clamps
- rugged construction
- easy to use, designed for efficiency

## Spiral Clamps

### Features:

- more than one clamp may be needed per size, contact the hose manufacturer for more information
- due to fluctuations in the OD of hose each individual installation should be checked
- for use on convoluted cover hose
- To determine which style clamp is needed for your hose look at the end of the hose; if the helix spirals in a clockwise direction away from you (along the hose), a clockwise clamp is needed. If the helix spirals in a counterclockwise direction away from you, a counterclockwise clamp is needed. Examples include, but are not limited to: Kuriyama convoluted hose uses counter clockwise clamps; Pacific Echo and Kana Flex use clockwise clamps; Goodyear uses both counter clockwise and clockwise.

clockwise wound  
right hand spiral

counter clockwise wound  
left hand spiral
